4.3.1 Institution frequently up dates its IT facilities including Wi-Fi

With the increasing demand for internet access in educational campuses due to evolving standard of education and flexibility offered by the Internet - universities, colleges, educational institutes etc., are keenly stepping forward to setup secured and stable wired or Wi-Fi network campus for their students.

Educational campuses have major requirements of user access control, control over bandwidth consumption, and differentiated policy control for management faculty's access and student's access.

Currently we are using BSNL lease line of 100 MBPS. Also we have provided Wi-Fi facility to student at both hostel as well as in campus. Campus is having 100 MBPS and hostel has high speed internet facility. The institute has a 24X7 Wi- Fi facility in the college campus for the student and faculty members to avail internet connection at any place in the college, &hostel.
